Asare Kofi Aikins

FULL-STACK DEVELOPER & EDUCATOR

Accra, Greater Accra Region, Ghana | kofiasareaikins94@gmail.com | 0557815752 / 0204904397

github.com/FarO-Stone-1 | linkedin.com/in/aikins-asare-6b5111371 | 𝕏x.com/FaroStone

PROFESSIONAL SUMMARY

Full-stack developer with 3+ years of hands-on software development experience and 6+ years of teaching Mathematics, Science, and ICT across primary and secondary levels. Skilled in Node.js, PHP, TypeScript, and cloud database systems, with a proven ability to translate real classroom problems into production-grade software. Currently building SchoolHub, a multi-tenant SaaS platform for school management.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, TypeScript, React, Next.js, SvelteKit 5, Tailwind CSS
Backend	Node.js, Express, Hono, tRPC, PHP 8.x, RESTful APIs, Zod
Database	MySQL, PostgreSQL (Neon), MongoDB, Drizzle ORM
Languages	JavaScript, TypeScript, PHP, Python, C++, VB.NET
Security	Networking Fundamentals, Network Security, TCP/IP, BCrypt Hashing, RBAC
Tools	Git, GitHub, VS Code, Vercel, Turborepo, pnpm, Figma

SELECTED PROJECTS

SchoolHub — Multi-Tenant School Management SaaS

2026

Full-Stack SaaS Platform · In Active Development

Multi-tenant SaaS platform for schools in Ghana and beyond. Role-based access for admins, teachers, students, and parents across academics, attendance, exams, fees, and communication. Built from firsthand classroom experience.

STACK: SvelteKit 5, TypeScript, Hono, tRPC, Drizzle ORM, Neon Postgres, Better Auth, Tailwind 4

Virtual Classroom Platform

2026

Full-Stack Web Application

Interactive learning portal connecting students, teachers, and admins. Includes coursework submissions, announcements, and a self-bootstrapping cloud database architecture on Aiven MySQL over SSL.

STACK: Node.js, Express, MySQL (Aiven Cloud), RESTful APIs, SSL

MediCore HMS — Hospital Management System

2025

Full-Stack Web Application

Modern hospital management platform with Role-Based Access Control, glassmorphic UI, and real-time dashboard metrics. Secured with BCrypt password hashing and MySQLi prepared statements.

STACK: PHP 8.x, MySQL, MySQLi Prepared Statements, HTML5, CSS3, JavaScript ES6+

Very Very Boards — Order Processing Application

2025 – 2026

Desktop Application · Academic Project

Windows Forms order-processing system for a custom shirt and board business. Menu-driven navigation with keyboard access keys, event delegation via .PerformClick(), and dynamic pricing logic.

STACK: VB.NET, .NET Windows Forms, Visual Studio

PROFESSIONAL EXPERIENCE

Full-Stack Developer

3 Years · Ongoing

Self-Directed Practice

Building full-stack web and desktop applications across modern stacks. Currently developing SchoolHub, a multi-tenant SaaS platform for school management.

Teacher — Science & Mathematics

2024 – 2025

Palma Christian School

Taught Science and Mathematics to primary and junior high students. Brought classroom insight directly into every education software project I build.

National Service Teacher — Integrated Science

2022 – 2023

Kwabenya Senior High & Technical

Served my national service year as an Integrated Science teacher, delivering practical science education to senior high students.

Teacher — Science & ICT

2015 – 2017

High Grade Montessori School

Taught Science and ICT to primary students. My first classroom experience, and where I first saw the daily challenges that school management software could solve.

EDUCATION

Diploma in Information Technology

2024 – 2026

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi

Coursework in VB.NET, web development, C++, networking, and network security, applied through real course projects.

HND in Civil Engineering

2019 – 2022

Takoradi Technical University

Built a foundation in structural thinking, mathematics, and engineering discipline that continues to shape my approach to software architecture.
